Understanding

This document is about our MagTrack – Magento Sales Tracking Mobile App. MagTrack allows Magento merchants to track their store sales and other data on their mobile phones. This app reduce the dependency of the store owners on laptops and desktops. App also gives graphical representation of total sales in a day, week and month.

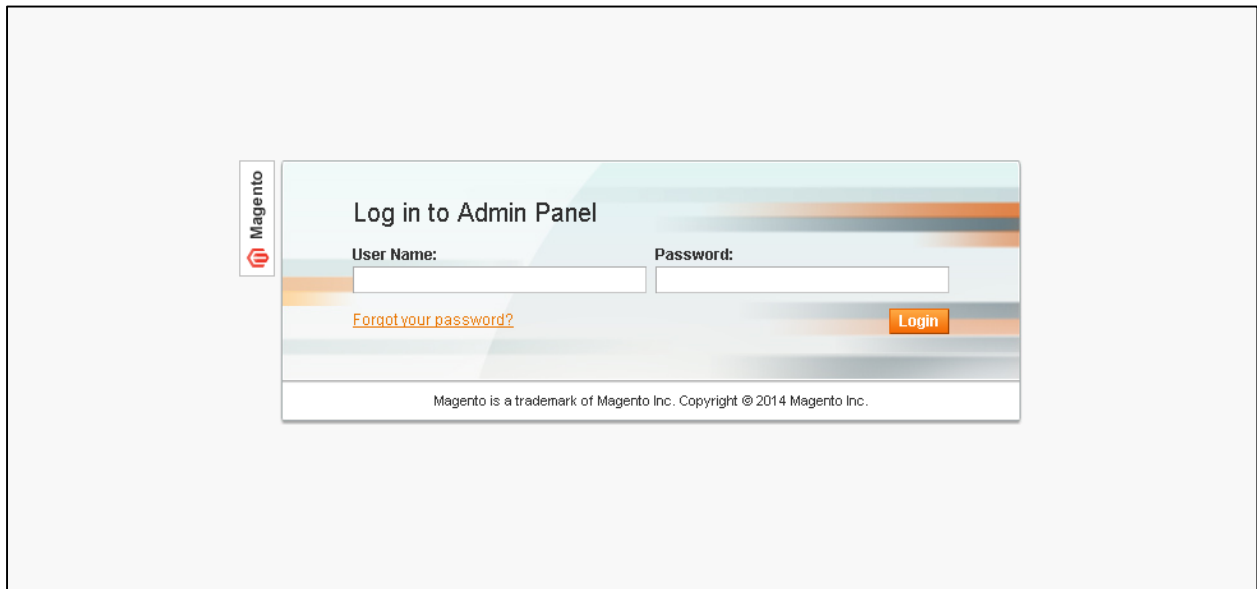

Features

- The app gives information about the **Bestsellers products** that are very popular on the website.
- The app provides complete information on the **orders** placed on the website. The comprehensive report lists all the orders made in a chronological manner.
- **Push notifications** are available for all the important updates from the store. The user can set customized settings for receiving the push notifications.
- The data from the store is synced once the extension is installed on the website. The data is available through the app on a mobile device. The app can be easily downloaded from the app store.
- The store owner can access the **customer's details** through the app itself and establish contact by tapping on the contact details.

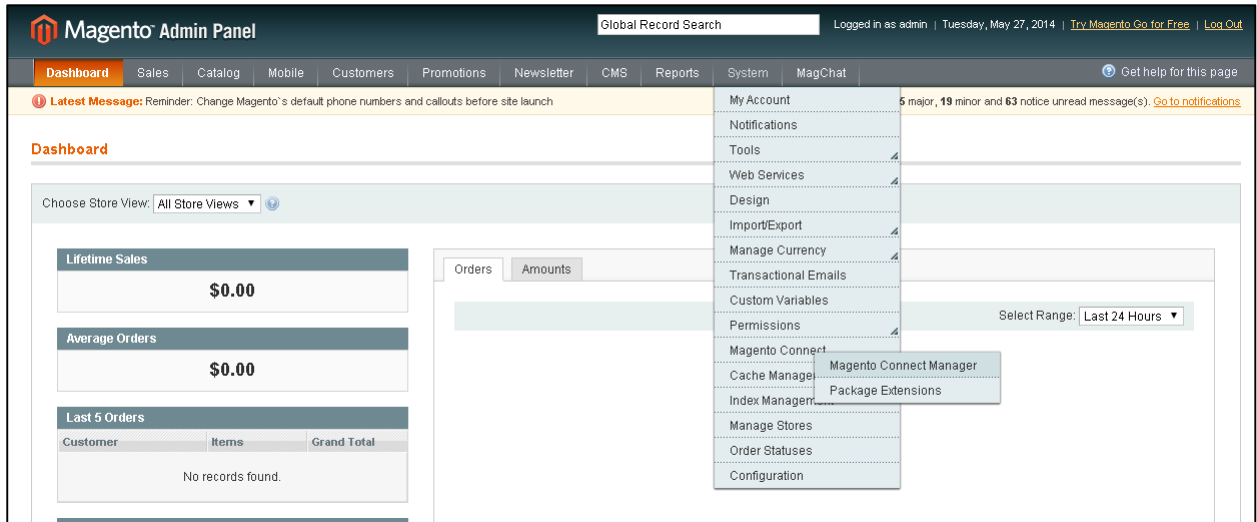

Steps to be taken for Installation

Installation Method 1

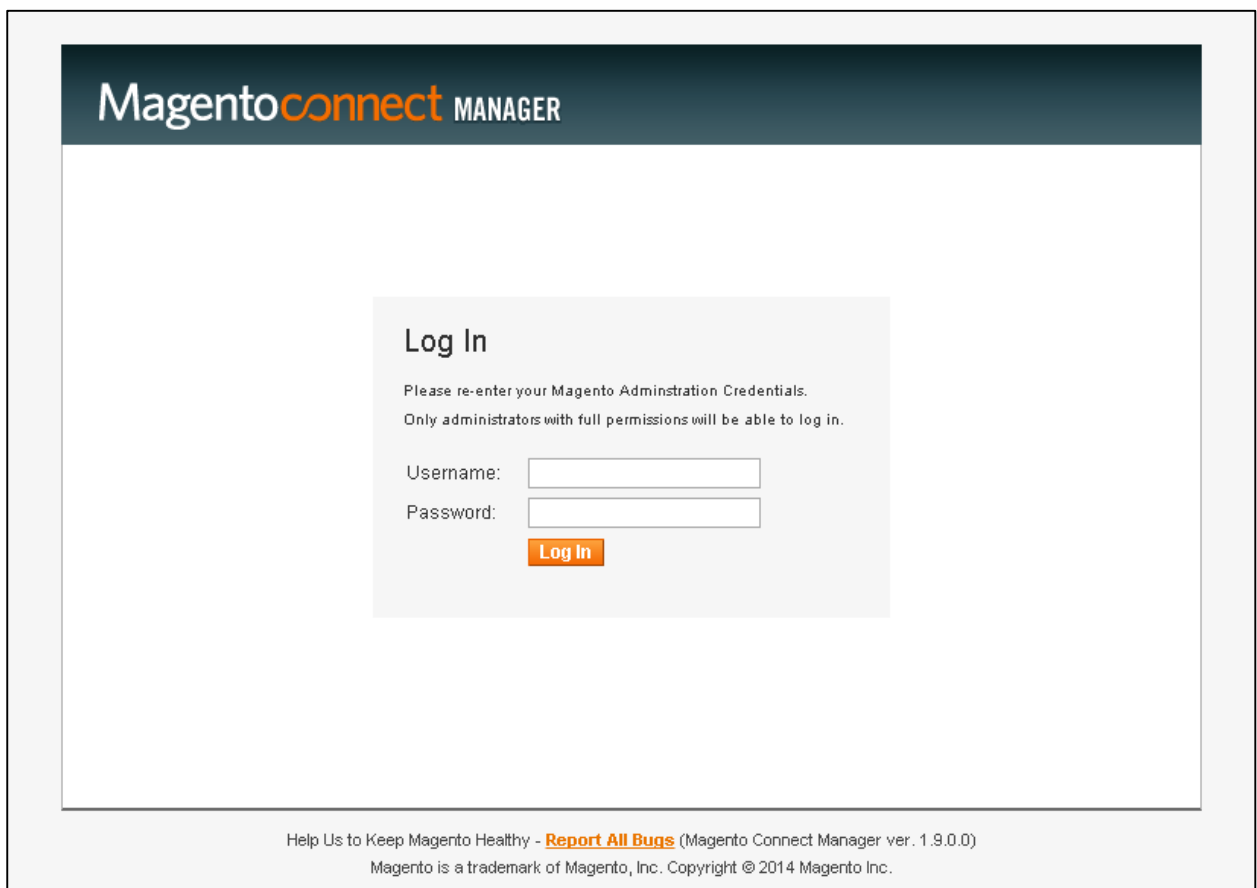

>>**Step-1.** Login with your Magento admin.

>>**Step-2.** Go to system -> Magento Connect -> Magento Connect Manager

>>**Step- 3.** Login with Magento Connect Manager (with your Magento admin credentials)

Installation Method 2

The procedure for Installing MagTrack Connector Module is very simple. All you have is the FTP/SSH access and then following these steps to complete installation.

- Unpack the Downloaded (ZIP) Package File.
- Upload all files to the root folder of Magento Installation.
- Login to Magento admin and clear Cache.

[Note: In case you are using Code Compilation then please disable it before installing the extension.]

How to Track your Magento Store data on Mobile?

>>Step-1. Download and Install Free Mobile App from Google Play Store.

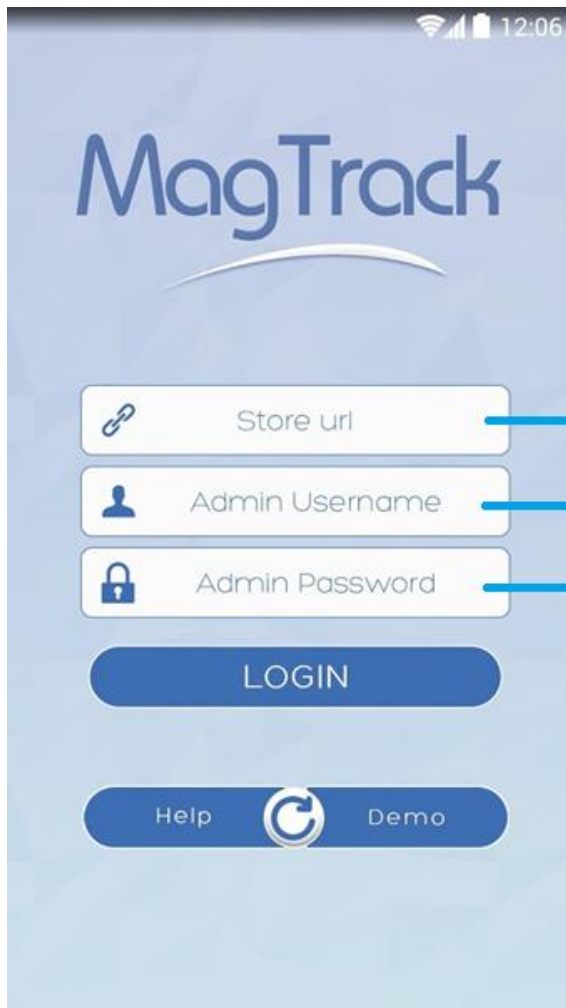

Scan the QR Code to Download Free App

App Download Link: <http://goo.gl/n4rIXH>

>>Step-2. Add your Store details in the Mobile App.

1. Store URL – For example: <http://www.domain.com>
2. Admin Username & Admin Password

Enter Your Store URL
For Example: www.domain.com

Enter Your Admin Username

Enter Admin Password

>>**Step-3.** Touch Login to Track your Store Details

[Note: The App will track store data only after the installation of the MagTrack Connector Module which is available at SoftProdigy Store.]

Front End Demo Screenshots of App:

MagTrack App Dashboard

The screenshot shows the 'Orders' screen of the MagTrack app. It features a search bar with 'Search by Order No' and 'Search by Customer Name' options. Below the search bar, it displays 'Total Sales : \$31944 (155 Orders)'. The main content is a list of orders, grouped by date. The first group is for '05-01-2015' and the second is for '02-01-2015'. Each order entry includes the customer name, amount, time, and status.

Date	Customer Name	Amount	Time	Status
05-01-2015	Suneet Kumar #145000116	\$235.58	16:06:52	pending
	sandy singh #145000115	\$249.00	12:45:53	complete
02-01-2015	tinu minu #145000114	\$449.32	19:25:41	pending
	tinu minu #145000113	\$163.47	19:18:57	pending
	tinu minu #145000112	\$201.35	19:14:17	complete
	tinu minu #145000111	\$160.47	18:57:22	complete
	tinu minu #145000110	\$160.47	18:57:22	complete

At the bottom, there are buttons for 'Help' and 'Settings', and a status bar indicating 'Last sync time (14/Jan 12:10)'.
